FRESNO, CA – The Fresno County Republican Party deeply regrets the violent shooting in Washington, D. C., this morning. Our thoughts and prayers go out to the injured, including Republican Majority Whip Steve Scalise. A special note of thanks goes to the Capitol Hill law enforcement whose quick and brave action in stopping the shooter likely prevented more deaths. Unfortunately, it appears that Republican legislators and their staff members were targeted by the shooter as they practiced for a congressional baseball game. This is a time for us as Americans to unite in support of our public servants who work on our behalf.
