**FRESNO COUNTY REPUBLICAN PARTY  
SUPPORTS PRESIDENT TRUMP'S  
STATE OF EMERGENCY DECLARATION**

**FRESNO, CA** – The members of the Fresno County Republican Party join the majority of Americans who strongly support President Trump's Emergency Declaration regarding the border. We support the efforts of our administration who is working closely with Mexican and Central American authorities to stem the tide of people illegally crossing their borders on the way to ours.

The chairman of the FCRP, Fred Vanderhoof, stated that, "Democrat leaders in Congress are failing to protect American citizens from drug cartels, human traffickers, and possible terrorists that are daily entering our country. In addition to the violence against citizens and the undocumented, our nation is being greatly harmed by the staggering amount of money which we are spending on non-citizens, money which could be used for the needs of American citizens."
